**CRAFTSMANSHIP
AS IF EMPLOYEES
OWN THE COMPANY,
BECAUSE THEY DO.**

- Ownership on the plant floor is what makes the difference, employees control all of the company stock
- Drawing upon four decades of proven industry experience to create long-term customer relationships
- Featuring long-term “employee-owners” committed to unparalleled engineering, manufacturing and customer service
- Providing outstanding and responsive technical support for life of system

**COLD STORAGE
MADE TO ORDER,
MADE TO LAST.**

Foodservice businesses who specify Imperial get a customized approach for their walk-in cooler and freezer system. Imperial’s precision engineering means you can count on walk-in systems with unparalleled capabilities in design, longevity and energy efficiency.

CUSTOM DESIGN:

- Built to your exact specifications to maximize effective use of space
- Optimizes shelving space and layout

SUPERIOR SYSTEM LIFE:

- Features durable high-density structural framing for each made-to-measure panel to ensure exact alignment
- High density polyurethane framing adds structural integrity and strength to the entire walk-in

OUTSTANDING ENERGY EFFICIENCY:

- Features environmentally friendly polyurethane foamed in place construction providing the highest insulating values in the industry
- Uses smart design engineering throughout system to produce exceptionally high energy-efficiency
- Tested and validated by Food Service Technology Center to qualify for utility company energy-efficiency rebate programs
- Meets or exceeds all federal and state mandated energy-efficient requirements including Federal EISA and California Title 20 and 24

**THE LOGIC LEADS
TO ONE CONCLUSION:
NO ONE MAKES
WALK-IN COOLERS
AND FREEZERS LIKE IMPERIAL.**

- Featuring precise engineering and innovative design for exact and constant temperature control meeting your specific requirements
- Calling upon innovative manufacturing methods and components to enhance operation and system life for the harshest foodservice environment
- Using the most advanced technologies for highly rated energy efficiency
- Backed by an “employee-owner” organization with more than four decades of uncompromised commitment to product quality and customer support
